

TN022 – Sonnen eco 8.0 Product Upgrade to Wider Cabinets

The width of the sonnen eco 8 series products is to become wider by approximately 3cm to aid the installation and servicing of the battery modules.

This dimensional change will affect both the main (top) unit as well as the lower battery extension housing.

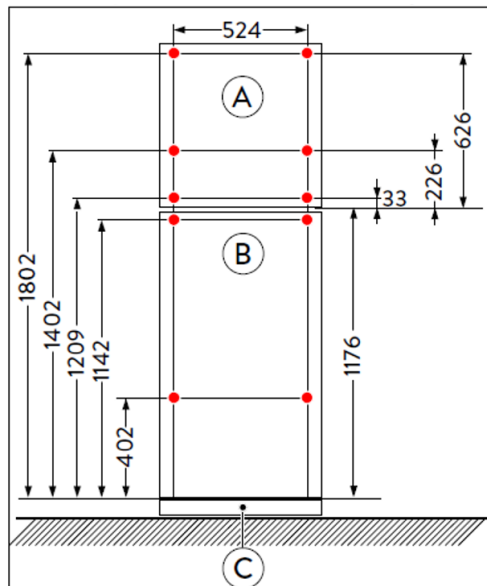

For reference please note the following product SKU changes:

Product Description	SKU Normal	SKU Wide
Large Battery Extension Cabinet (White) – x7 Modules	45302	45902
Small Battery Extension Cabinet (White) – x4 Modules	45303	45903
Eco 8.0 Main Unit Without LCD Display (White) 3-PHASE	45460	45842
Eco 8.1 Main Unit Without LCD Display (White) 3-PHASE HYBRID	45590	TBC
Eco 8.2 Main Unit With LCD Display (White) 1-PHASE	45721	TBC
Eco 8.2 Main Unit Without LCD Display (White) 1-PHASE	45710	45770

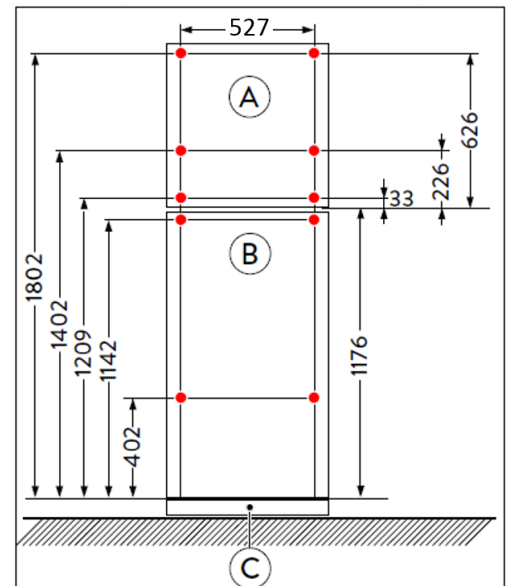

Please Note:

Using a combination of normal and wider system components is not possible due to weight distribution and the alignment of cable access. Please ensure that system components supplied are of the same width dimension.

Normal System Dimensions

Wider System Dimensions

- A Main cabinet
- B Big extension cabinet
- C Levelling mat (height: 10 mm) or pedestal (optional – height: 80 mm)

Yours faithfully,
